## Indieheaven Radio

- Thanks for checking out Indieheaven Radio!
- Songs are uploaded by our roster and we add them to our charts.
- Start at Song #1 and listen to ALL SONGS in Order!
- Click on ANY song title to listen to that song only.
- New Songs added All the Time!
- Rate artists and watch them climb the charts!
- Rate each song by clicking on the stars. 5 is great, 1 is not so great.
- Your rate will count 1 time per 24 hour period. If you rate over and over again, your rates will not be counted.
- Visit artist pages by clicking their name or by clicking the text next to their album cover picture.
- Who will be #1???

## Indieheaven Radio Charts

Our Indieheaven radio chart features songs uploaded from artists found on Indieheaven. The chart is fan based, we encourage our artists to get their fans to rate their songs and move them up the charts. The more rate points, the higher the song will be on the chart. Songs are left on the chart for 90 days and then deleted. This keeps a constant flow of new songs and the chart fresh!

Our strategic partner, Christian Radio and Retail Weekly publishes our Indieheaven Radio Chart each week. CRW Magazine goes out to most radio stations and record labels and is the source for chart activity. Make sure you check out Indieheaven's Radio chart in CRW.

## INDIEHEAVEN PODCAST NOW ONLINE!

Check out our Indieheaven Radio Podcast featuring staff picks from the pool of songs found on our charts in a cool radio show format. Shows are produced and hosted by Indieheaven founder, Keith Mohr. We update our show often. To access the Feed, click the graphic: 

If the songs do not play for you, or if you cannot select an artists song, make sure you have the "www" before indieheaven.com. We found out if the "www" is not our web address, you cannot go song to song. Also, check to make sure you have JavaScript enabled and macromedia flash installed, you are not behind a firewall, you have cookies enabled, internet security set to medium and most importantly, your broadband bill paid. You MUST have broadband to listen. 56k dialup will not work, sorry!
